~~An act to amend Section 40051 of the Public Resources Code, relating to solid waste. An act to amend Section 19530 of the Business and Professions Code, relating to horse racing.~~

### LEGISLATIVE COUNSEL'S DIGEST

AB 2592, as amended, Chesbro. ~~Solid waste: management. California Horse Racing Board: racing dates: economic analysis.~~

*Existing law, the Horse Racing Law, provides for the operation of live horse racing in this state and for wagering thereon, and for the operation of satellite wagering facilities, subject to regulation and oversight by the California Horse Racing Board. That law also requires the board to allocate racing weeks to an applicant, to specify racing days, dates, and hours for horse racing meetings as will be in the public interest, and provides that the decision of the board is subject to change, limitation, or restriction only by the board.*

*This bill would require the board, when it receives a proposal from an applicant to make a substantial change, as defined, to the number of racing dates allocated to a fair or racetrack, to conduct an economic analysis of the proposal's effect on other fairs and racetracks and to consider all proposed alternative racing dates based on that economic analysis before the board votes on the proposal or any alternative option to the original proposal.*

~~Existing law requires the Department of Resources Recycling and Recovery and local agencies, when implementing the California~~

~~Integrated Waste Management Act of 1989, to promote certain waste management practices in a specified order of priority.~~

~~This bill would make a technical, nonsubstantive change to those requirements.~~

Vote: majority. Appropriation: no. Fiscal committee: ~~no~~-yes.  
State-mandated local program: no.
